

### Description

Loxéal CA Remover is a solvent blend to be used to remove cured cyanoacrylate adhesive from surfaces, clothing or to debond parts assembled with cyanoacrylate adhesives.

### Liquid properties

Appearance :	Clear liquid
Specific Gravity @ +20°C g/ml :	ab. 1.1
Viscosity @ 68°F, cP +20°C, mPa s :	1.5
Flash Point :	+35°C
Vapour pressure, mbar @ 68°F/(+20°C) :	27
Shelf life at +25°C : 12 months in original unopened packaging	

### Use and application

Apply ca remover to cured cyanoacrylate adhesive; its removal may take from several minutes to several hours, depending on the amount of adhesive.

- thin layers of adhesive will wipe off with a ca remover soaked tissue or cloth.
- thick beads or drops take between 15 to 30 minutes and may require reapplication of solvent.
- bonded parts may require several hours of soaking.

### Handling precautions

This solvent can affect certain plastics, coatings and fabrics. It is recommended to test all surfaces for compatibility before use.

### Storage

We recommend to store product in a cool and dry place at temperature between +8°C and +20°C. To avoid contaminations do not refill containers with used product. For further information on applications, storage and handling contact Loxéal Technical Service

### Safety and handling

Consult the Safety Data Sheet before use
